캠퍼스는 어떻게 생겼나요? 캠퍼스에서는 무엇이 보이나요? 모두 상세히 이야기해 주세요.

(서론 - 학교 이름과 위치)

- Okay. Let me tell you about my school.

- I attend Jongno university which is located in Seoul, the capital of South Korea.

- Although the university is located in the biggest city in my country, the campus itself is free of all the hustle and bustle of a big city.

- So I like that it's a very quiet place!

(본론 1 - 학교 건물 묘사)

- First of all, what sets my school apart from others is that there are so many beautiful buildings on the campus.

- Not every building on campus is old, but a lot of them were built in the early 1900s.

- I would say the best one is the campus library because it is a beautiful building made of red brick!

- It also has huge windows, and I love the way sunlight always beams in.

(본론 2 - 학교 풍경 묘사)

- In addition, the campus is super pretty, especially during the spring because it's full of flowers, trees and plants.
- More specifically, the plants cover all of the buildings and make them even more picture perfect.
- So I would say, walking around/on campus in the spring is always a pleasure!

(마무리 - 나의 학교 좋아!)

- Overall, I feel lucky and grateful to attend such a good/prestigious/renowned university.
- My university has been around for over a hundred years, and I'm proud to be part of my school!
